460ETCBMS-N2E

BACnet MS/TP to Allen-Bradley PLC

FEATURES

- Supports connection to five Allen-Bradley PLCs
- Up to 150 tag or file arrays of data can be mapped in each direction
- Fully configurable BACnet MS/TP Subordinate
- BACnet MS/TP supports device, binary I/O, analog I/O, and character string value object types
- Effortless Browser
 Based Configuration,
 no programming
 software is required
- Simple data translation allows you to manipulate data as it passes between protocols
- 5-Year Hardware Warranty

Get Your BACnet MS/TP System Connected Directly to the Data Table of Your Allen-Bradley PLC

The 460ETCBMS moves data between a BACnet MS/TP system and Allen-Bradley PLCs.

With the 460ETCBMS, you are making a direct connection between BACnet MS/TP Manager data and user-defined tags or registers in the data table of your Allen-Bradley PLCs. There is no polling from the PLC or EtherNet/IP scan lists to arrange.

How Do I Use the 460ETCBMS-N2E in My Application?

You allocate two blocks in your Allen-Bradley PLC. One area is write only tags or register blocks accepting data from your BACnet MS/TP Manager. The other area is read only tags or register blocks to send data to your BACnet MS/TP Manager. It's really that simple.

Why Use Real Time Automation as a Gateway Supplier?

While there are certainly other companies offering protocol gateways, there is no one who provides the level of support and service that you receive from RTA.

When you call, a live person answers the phone. When you talk with sales, you will get honest answers and recommendations. When you get support, it is from an engineer who had a hand in the product's development, and support doesn't require a ticket or 24-hour wait.

A Solution, A Philosophy, the RTA Way. We understand the long hours spent on a factory floor and the pressure to keep a line running and product flowing. That's how Real Time Automation came to be. You want easy-to-use solutions where the hardest part is to open the box. You need customer support second to none. If you get all that and a fun customer experience all the better. Thirty years later, our mission remains the same: To move your data where you need it, when you need it, and how you need it.

Specification

ETHERNET TAG CLIENT FEATURES		
PLC Support	ControlLogix, CompactLogix, FlexLogix, MicroLogix, SLCs and PLC5Es	
Maximum Number of PLCs Supported	5	
Maximum Number of Input/Output Tags or Files per PLC	150	
Maximum Number of Bytes per PLC Tag	400	
Array Support	Yes, for all data types except strings	
Supported Data Types	Usint, Sint, Uint, Int, Udint, Dint, Real, String, Bit Array 16, Bit Array 32, Bool, and Long	
BACNET MS/TP RESPONDER FEATURES		
Operation Mode	BACnet MS/TP Manager Responder	
Supported Object Types	Device, Binary I/O, Analog I/O, Character String Value	
Supported Service Codes	Read & Read Multiple-B, Write & Write Multiple-B, COV & COV unsolicited-B, Device Dynamic Binding-B, Dynamic Object Binding-B	
Maximum Connections	1	
Analog Objects Supported	1200 Input and 1200 Output	
Binary Objects Supported	1600 Input and 1600 Output	
INCLUDED WITH GATEWAY		
3' power cable with flying leads	5-year hardware warranty	
IPSetup software – automatically locates RTA gateway on the network	Unlimited firmware feature upgrades for life	
CAT5 crossover cable for direct connection to PC during programming	Complete, unlimited access to our industry leading support staff
