460SCQT-NNA1

Siemens PLC to MQTT Broker

FEATURES

- Supports connections to five Siemens S7 PLCs
- Up to 150 read and 150 write requests per connection
- Bring your factory data to the cloud
- Supports up to 3 MQTT broker connections
- Effortless Browser
 Based Configuration,
 no programming
 software is required
- Simple data translation allows you to manipulate data as it passes between protocols
- 5-Year Hardware Warranty

Bridge Siemens Controllers to an MQTT Cloud Based Platform

The 460SCQT moves data between a Siemens controller and an MQTT platform. Allowing you to easily log data and leverage in populating dashboards. Best of all, the product comes with 5-year warranty.

How Do I Use the 460SCQT-NNA1 in My Application?

You map an input of and output block on memory in the data table of the Siemens PLC to topics published or subscribed to in an MQTT broker. SSL transport layer security protects the data moving from your operations network to the cloud.

Why Use Real Time Automation as a Gateway Supplier?

While there are certainly other companies offering protocol gateways, there is no one who provides the level of support and service that you receive from RTA.

When you call, a live person answers the phone. When you talk with sales, you will get honest answers and recommendations. When you get support, it is from an engineer who had a hand in the product's development, and support doesn't require a ticket or 24-hour wait.

A Solution, A Philosophy, the RTA Way. We understand the long hours spent on a factory floor and the pressure to keep a line running and product flowing. That's how Real Time Automation came to be. You want easy-to-use solutions where the hardest part is to open the box. You need customer support second to none. If you get all that and a fun customer experience all the better. Thirty years later, our mission remains the same: To move your data where you need it, when you need it, and how you need it.

Specification

Siemens S7 CLIENT FEATURES	
PLC Support	S7 300/400/1200/1500
Maximum Number of PLCs Supported	5
Maximum Number of Inputs/Outputs per PLC	150
Maximum Number of Bytes per Scan Line	400
Memory Area Access	Input (I), Output (Q), and Data Block(DB)
Supported Data Types	8 Bit Int, 16 Bit Int, 32 Bit Int, 32 Bit Float, Bool and Char Array
MQTT CLIENT FEATURES	
Operation Mode	Generic MQTT, Amazon Web Services (AWS)
Max Broker Connections	Up to 3 Generic MQTT Connections or 1 AWS
Max Data Points Per Connection	250 Read Topics, 250 Write Topics
Security	SSL certificate based cloud access
Supported Data Formats	JSON
Data Payload	Topic Name and Value
INCLUDED WITH GATEWAY	
3' power cable with flying leads	5-year hardware warranty
IPSetup software – automatically locates RTA gateway on the network	Unlimited firmware feature upgrades for life
CAT5 crossover cable for direct connection to PC during programming	Complete, unlimited access to our industry leading support staff
Manual	

ELECTRICAL / ENVIRONMENTAL		
DC Input Voltage	12-24 VDC	
Maximum Baud Rate	115K baud	DIN Rail Mount
Operating Temperature	-40 C to 85 C	3.88 —
Certification	RoHS-Compliant, UL, CUL, CE Approvals	,
ENCLOSURE / HARDWARE		
Size	3.88" x 2.57" x 1.06"	
Weight	5.5 oz	
Enclosure Type	Anodized Aluminum	2.57
Mounting	Din rail or panel mount	
LEDs	Power LED & 2 general purpose LEDs on side	Note: All dimensions
GATEWAY FEATURES & FUNCTIONS		are in Inches
	Set <, <=, >, >=, ==, !=, and change-of-state rules on	·
Alarming	any data moving through the gateway. If alarm rule	00000
