### 460WIUS-N2EW

### Wireless Web Interface to OPC UA

### **FEATURES**

- Get PLC data table entries encoded in either JSON or XML
- Bidirectional data transfer supports both HTTP GET and POST
- Fully configurable OPC UA server
- Up to 10 read and write groups with up to 200 nodes per group
- Effortless Browser
   Based Configuration,
   no programming
   software is required
- Simple data translation allows you to manipulate data as it passes between protocols
- 5-Year Hardware Warranty

## Add a RESTful Interface to Connect an OPC UA Controller over Wi-Fi

The 460WIUS moves data between up to three OPC UA clients and a web based application. The gateway presents the OPC UA data as JSON or XML files transferred via HTTP commands over Wi-Fi using Wi-Fi IEEE 802.11 b/g/n at 2.4GHz with AES encryption 128-bit.

Best of all, the product comes with 5-year warranty.

### How Do I Use the 460WIUS-N2EW in My Application?

OPC UA node data is mapped to an XML or JSON encoded file. These files are passed via HTTP commands.

It's really that simple to convert data to the information systems you need to monitor your application.

### Why Use Real Time Automation as a Gateway Supplier?

While there are certainly other companies offering protocol gateways, there is no one who provides the level of support and service that you receive from RTA.

When you call, a live person answers the phone. When you talk with sales, you will get honest answers and recommendations. When you get support, it is from an engineer who had a hand in the product's development, and support doesn't require a ticket or 24-hour wait.

A Solution, A Philosophy, the RTA Way. We understand the long hours spent on a factory floor and the pressure to keep a line running and product flowing. That's how Real Time Automation came to be. You want easy-to-use solutions where the hardest part is to open the box. You need customer support second to none. If you get all that and a fun customer experience all the better. Thirty years later, our mission remains the same: To move your data where you need it, when you need it, and how you need it.

# **Specification**

| WEB INTERFACE FEATURES  |   |
|---|---|
| Max Web Interface Connections                                       | One (gateway acting as client) / Unlimited (gateway acting as server) |
| Encodings   | JSON and XML  |
| Proxy Support   | HTTP, SOCKS5 for Client   |
| Maximum Number of Input Data Points                                 | 1000 JSON Fields or 1000 XML Tags                                     |
| Maximum Number of Output Data Points                                | 1000 JSON Fields or 1000 XML Tags                                     |
| HTTP Services   | Client: POST only; Server: GET and POST                               |
| OPCUA SERVER FEATURES   |   |
| Operation Mode  | OPC UA Server   |
| Simultaneous Connections Supported                                  | 3   |
| Max number of Input Nodes per Node Type                             | 200   |
| Max number of Output Nodes per Node Type                            | 200   |
| Array Support   | Boolean,64 Bit Integer, 64 Bit Unsigned Int and 64 bit Float          |
| Profiles Supported  | UA 1.03 Micro Embedded Server and Data Access                         |
| INCLUDED WITH GATEWAY   |   |
| 3' power cable with flying leads                                    | 5-year hardware warranty  |
| IPSetup software – automatically locates RTA gateway on the network | Unlimited firmware feature upgrades for life                          |
| CAT5 crossover cable for direct connection to PC during programming | Complete, unlimited access to our industry leading support staff      |
| Manual  |   |

| ELECTRICAL / ENVIRONMENTAL   |   |   |  |  |
|------------------------------|---|---|--|--|
| DC Input Voltage             | 12-24 VDC   |   |  |  |
| Maximum Baud Rate            | 115K baud   |   |  |  |
| Operating Temperature        | -40 C to 85 C   |   |  |  |
| Certification                | RoHS-Compliant, UL, CUL, CE Approvals, Class I Div 2  | 3.83  |  |  |
| ENCLOSURE / HARDWARE         |   |   |  |  |
| Size                         | 5.40" x 3.83" x 1.19"   |   |  |  |
| Weight                       | 7.6 oz  |   |  |  |
| Enclosure Type               | Anodized Aluminum   |   |  |  |
| Mounting                     | Din rail or panel mount   | <b>                                    </b>   |  |  |
| LEDs                         | Power LED & 2 general purpose LEDs on side  |   |  |  |
| GATEWAY FEATURES & FUNCTIONS |   |   |  |  |
| Alarming                     | Set <, <=, >, >=, ==, !=, and change-of-state rules on<br>any data moving through the gateway. If alarm rule<br>is triggered an email notification can be sent. | 8   |  |  |
| Gateway Security             | You can configure up to 9 different users access to diagnostic and configuration screens.   |   |  |  |
| Translation Table            | Allows for data manipulation during protocol translation. Scaling and other data format changes can occur in the gateway.                                       |   |  |  |
| Status and Counters          | Protocol specific status, counters, and error messages are accessible within the gateway's diagnostics page. They can also be delivered to a connected device.  | NOT EXACTLY WHAT YOU WERE LOOKING FOR?  Real Time Automation offers a full line of gateway products.  Give us a call at 1-800-249-1612. Or, check out a listing at  www.rtautomation.com/products. We also offer  customizations for unique applications. |  |  |
| Diagnostic Logging Page      | Allows users to see and log start up sequences, protocol specific messages & error messages.  |   |  |  |

| CATALOG #    | DESCRIPTION  |
|--------------|--|
| 460WIUS-N2EW | Connect up to three OPC clients via a web interface over Wi-Fi |
